💻 Remote work only

🚗 Personal vehicle

📍 Vendée, France

☎ 06 01 22 84 47

Front-end developer specialized in React, passionate about code architecture, workflow automation, and web performance optimization. Available for remote work in international environments.

TECHNIQUES PROJET

Personal Portfolio — solenesun.com

React + Vite website hosted on GitHub Pages.

- Modular structure (reusable components)
- Accessibility : 0 error on WAVE, Lighthouse score 96–100
- SEO optimization (meta tags, sitemap.xml, robots.txt)

“ArgentBank” — React/Redux Banking Application

Banking app with JWT authentication and user profile management.

- Stack : React, Redux, Node.js, Swagger
- API REST connected to global store

“Nina Carducci” — Optimized SEO Showcase Site

- SEO and accessibility optimization (HTML, CSS, JS)
- Lighthouse score 96–100, semantic and performance refactor

These projects helped me strengthen my skills in React development, SEO optimization and API integration.
